

Certificate in Climate Risk

The first joint qualification from the Chartered Body Alliance

What is the Certificate in Climate Risk?

Managing climate-related risks and supporting the transition to a low-carbon world are amongst our most significant global challenges. Central banks and financial regulators consider the identification, measurement and disclosure of these risks to be a priority.

Recognising the strategic importance of this topic, the Chartered Body Alliance have developed their first joint qualification, the Certificate in Climate Risk.

The aim of the qualification is to develop the learner's professional knowledge, understanding and skills relating to climate change, climate risk and sustainable finance, with a view to supporting customers, clients, colleagues, and communities with the transition to a sustainable, low-carbon world.

Who should study the qualification?

The qualification is designed for financial services risk professionals (or aspiring risk professionals) with an understanding of risk management principles and practices who wish to develop their knowledge of climate risk and demonstrate their expertise – wherever they are in the world. Firms could also use the qualification in induction or ongoing training to increase their staff knowledge in this area and demonstrate their commitment to tackling climate risk.

Although no prior knowledge of climate risk is required, completing the Certificate in Green and Sustainable Finance would provide a useful introduction to the subject.

Who are the Chartered Body Alliance?

The Chartered Body Alliance comprises three leading Chartered professional bodies (the Chartered Insurance Institute, the Chartered Institute for Securities & Investment and the Chartered Banker Institute), who work together in raising professionalism and trust across financial services by promoting high standards of knowledge, skill, integrity and behaviour.

Key features

- **Chartered Banker Institute student membership** - you will become associated with a globally recognised Chartered professional body. Join a network of over 30,000 members globally and take advantage of the professional and personal benefits offered by the Institute
- **Globally-recognised qualification** - awarded by the Chartered Banker Institute, delivered in partnership with the CISI and CII.
- **Prepare for a career in climate risk** - this qualification provides an overview of the sector and will help kick-start your career.
- Available to all - no previous knowledge of green finance is required, but an understanding of risk management principles and financial services practices is assumed.
- **Fast and affordable recognition** - the certificate can be studied for using online resources at your own pace (130 hours of study time required), and is assessed via a 1.5 hour, 75-question test, delivered online via remote invigilation with instant results.
- **Access to higher level qualifications** - The certificate may be studied on a standalone basis but can also act as a contributory module to the three modules required for the Professional Banker Diploma offered by the Chartered Banker Institute

Syllabus

- Climate change and its impacts on the environment, economy, society and financial services
- Climate-related risks
- Measuring, monitoring and reporting climate risks
- Modelling climate risks, including the use of scenario analysis
- Regulatory approaches and responses at global, national and regional levels
- Defining, developing and embedding climate risk appetite, governance and culture
- Supporting the transition to a sustainable, low carbon world

Studying for this qualification

Studying for this qualification 130 hours of study is required for this level 5 exam.

The certificate is delivered via an online study guide and interactive e-learning modules delivered via the Chartered Banker Institute's learning management solution, which enables learners to access them anywhere, anytime, using most computer, tablet and mobile devices.

Registration lasts for 1 year, so candidates can work through at their own pace.

Candidates will gain student membership, which means they gain access to hundreds of online events and additional learning and networking opportunities.

Assessment

The qualification is completed by passing a 1.5-hour exam of 75 multiple-choice questions. Exams are booked via the Chartered Banker Institute and are delivered online, via remote invigilation, with instant results

Next steps

Upon completion, the student will be able to use the designation **CCBI**.

The Chartered Banker Institute offer a range of qualifications and membership opportunities to suit even the most experienced professionals. After successfully completing this qualification, you are eligible to join the the Institute at Certificated level.
